

HELPFUL HINTS, ROCKY

- ADVICE:** Typical good boxing techniques will help you against Apollo.
- LEAD:** Long has a jolly belly. Give him lots of low jabs in the stomach!
- TRICK:** Get real close. Keep punching so that Drago starts going back towards his own corner. Punch him low during this stage. You can best finish him off by punching him in the face twice. If you can get Drago into his corner, you have won half the battle! Use stomach punches and finish off with two hits to the face.
